DETAILED ACTION

Response to Amendment

By amendment filed 8/23/2006, claims 1, 8, 16, 23, 31, and 35 are amended and claim 6 cancelled. Claims 1-5 and 7-36 are pending.

Terminal Disclaimer

The terminal disclaimer filed on 8/23/2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent No. 6,788,724 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

Claims 1-5 and 7-36 are allowed. The following is an examiner's statement of reasons for allowance:

There is not taught or disclosed in the prior art an optical apparatus comprising a tuning etalon in a light beam and defining a wavelength grid, a tuning element in the light beam and selecting from multiple channels, and a drive element magnetically coupled to the tuning etalon. The magnetic aspect, combined with the remainder of the claim, is primarily what separates the claims from the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
